

Figure 8: Performance of the proposed model on the Russian, Chinese, Japanese, and European datasets. The figure shows the performance of the model on the Russian, Chinese, Japanese, and European datasets. The performance is measured by the Area Under the Curve (AUC) score. The figure shows the performance of the model on the Russian, Chinese, Japanese, and European datasets. The performance is measured by the Area Under the Curve (AUC) score. The figure shows the performance of the model on the Russian, Chinese, Japanese, and European datasets. The performance is measured by the Area Under the Curve (AUC) score.
